Profile Summary

Full Stack Developer and Computer Engineering student with hands-on experience building scalable web applications using ASP.NET Core, Next.js, and Python. Skilled in designing RESTful APIs, optimizing relational database schemas (SQL Server, MySQL), and crafting responsive user interfaces. Combines a strong foundation in Data Structures, Algorithms, and Object-Oriented Programming with practical experience in Data Engineering and Machine Learning. Passionate about delivering clean, maintainable code and solving complex, data-driven challenges.

Education

Darshan University

Bachelor of Engineering in Computer Engineering, CGPA: 7.60/10

B.A.P.S. Swaminarayan Vidhyamandir

Higher Secondary Certificate (HSC), Science – 64.67%

Rajkot, Gujarat

2023 – 2027

Gondal, Gujarat

March 2023

Technical Skills

Languages: Python, SQL, C#, TypeScript, Java

Backend & Data: ASP.NET Core Web API, MVC, LINQ, Entity Framework, Prisma

Frontend: React.js, Next.js, HTML5, CSS3, Tailwind CSS

Databases: Microsoft SQL Server (MSSQL), MySQL, MongoDB

Developer Tools: Git, GitHub, Postman, Vercel, VS Code, Visual Studio

Core Competencies: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), RESTful API Design, JWT Authentication

Experience

GNWebsoft Pvt. Ltd.

Full Stack Developer Intern

November 2025 – May 2026

Rajkot, Gujarat

- Built and maintained responsive web applications using React.js and ASP.NET Core Web API, with Microsoft SQL Server (MSSQL) as the backing data store.
- Designed and optimized RESTful APIs to streamline data flow between SQL Server and the frontend, improving overall application response times.
- Collaborated with senior developers to troubleshoot database bottlenecks and implement efficient relational query strategies.

Gujarat Engineering Admission (JAC PC Merit No Predictor)

Backend Developer – Industry Collaboration Project

May 2025 – Present

Remote

- Contribute to backend maintenance and feature development for a live production mobile application using ASP.NET Core Web API and SQL Server.
- Manage RESTful APIs, bug fixes, and database operations to ensure data validation and architectural stability for active users.
- Collaborate with cross-functional mobile teams on endpoint integration, troubleshooting, and resolving production-level issues.
- Live Application: ▶ [Google Play Store](#)

Darshan University

Python Teaching Assistant

November 2025 – March 2026

Rajkot, Gujarat

- Mentored junior students in Python fundamentals and data structures, supporting them through coding assignments and one-on-one problem-solving sessions.

Projects

Health Portal – Next.js, Prisma, MySQL, Tailwind CSS (🐙 GitHub)

November 2025 – April 2026

- Designed an end-to-end hospital management system with modules for patient registration, appointment scheduling, and secure record management.
- Developed relational data models and optimized query efficiency using Prisma ORM with MySQL to handle clinical data workflows.

Heart Disease Analysis – Python, Scikit-learn, Pandas, Streamlit (🐙 GitHub | Live Demo)

January 2026

- Engineered a data pipeline using Pandas and NumPy to clean, preprocess, and perform exploratory data analysis on clinical diagnostic datasets.
- Trained a predictive model using Scikit-learn for cardiovascular risk assessment and deployed an interactive Streamlit dashboard for real-time risk evaluation.

Quiz Management System – ASP.NET MVC, C#, Entity Framework, SQL Server (🐙 GitHub)

September 2025

- Developed a quiz platform with Role-Based Access Control (RBAC) for separate admin and student portals.
- Modeled relational data for quizzes and results using Entity Framework Core's Code-First approach.
