Portfolio

Profile Summary

Full Stack Developer specializing in **ASP.NET Core (Web API/MVC)** and **Next.js** ecosystems. Experienced in architecting scalable RESTful services and responsive UIs with a focus on **C#, SQL Server**, and **Entity Framework**. Proven ability to optimize backend performance and implement complex **CRUD logic**, while leveraging a strong foundation in **DSA** to integrate **AI/ML fundamentals** into modern web architectures.

Education

Darshan University
Bachelor of Engineering in Computer Engineering (CGPA: 7.71/10)

Rajkot, Gujarat
2023 – 2027

B.A.P.S. Swaminarayan Vidhyamandir
Higher Secondary Certificate (HSC) PR (Science): 82.60

Gondal, Gujarat
March 2023

Technical Skills

Languages: C#, TypeScript, Python, Java, SQL
Backend: ASP.NET Core Web API, MVC, LINQ, Entity Framework, Prisma
Frontend: React.js, Next.js, HTML5, CSS3
Databases: Microsoft SQL Server (MSSQL), MySQL, MongoDB
Developer Tools: Git, GitHub, Postman, Vercel, VS Code, Visual Studio
Core Competencies: Data Structures & Algorithms (DSA), OOP, RESTful API Design, JWT Authentication, AI Fundamentals

Experience

GNWebsoft Pvt. Ltd. **November 2025 – May 2025**
Full Stack Developer Intern *Rajkot, Gujarat*

- Developed and maintained responsive web applications using **React.js** and **ASP.NET Core Web API** with **Microsoft SQL Server (MSSQL)** for scalable data management.
- Designed and optimized **RESTful APIs** to improve data communication between the **SQL Server** database and the frontend, enhancing application performance.

Darshan University **November 2025 – March 2026**
Python Teaching Assistant *Rajkot, Gujarat*

- Guided students in **Python**, data structures, and problem-solving while collaborating on coding assignments and providing one-on-one mentoring.

Projects

Health Portal (OPD Management) | *Next.js, Prisma, MySQL, Tailwind CSS* |  GitHub **November 2025 – Present**

- Architected an end-to-end hospital management system with modules for patient registration and appointment scheduling.
- Implemented secure data handling using **Prisma ORM** and **MySQL**, optimizing query efficiency for high-traffic healthcare environments.

Heart Disease Analysis | *Python, Scikit-learn, Pandas, Streamlit* |  GitHub | Live **January 2026**

- Developed a machine learning model to predict heart disease risk, achieving high accuracy through data preprocessing and feature engineering.
- Deployed a live **Streamlit** dashboard for real-time risk assessment, featuring interactive data visualizations and user-input handling.

Quiz Management System | *ASP.NET MVC, C#, Entity Framework, SQL Server* |  GitHub **September 2025**

- Built a secure quiz platform featuring **Role-Based Access Control (RBAC)** for admin and student portals.
- Managed complex relational data structures for quizzes and results using **Entity Framework Core's** Code First approach.

Industry Collaboration

Gujarat Engineering Admission **May 2025 – Present**
Backend Developer (Collaborative Project) *Remote*

- Collaborated on the backend maintenance and enhancement of a live production mobile application using **ASP.NET Core Web API** and **SQL Server**.
- Managed **RESTful APIs**, bug fixing, database operations, and backend performance optimization to ensure smooth application functionality for active users.
- Worked closely with the mobile/frontend team to support API integration, backend stability, and production-level issue resolution.
- Contributed to scalable backend architecture, authentication handling, and real-time data communication for the live application environment.
- Live Application:  [Google Play Store](#)
